SYMPOSIUM: TREATMENT OF AMINO ACID DISORDERS

Forward
David Yi-Yung Hsia, MD, Chicago .................................................. 1

Phenylketonuria

Treatment of Phenylketonuria
Helen K. Berry, MA; Betty S. Suitherland, MD; Barbara Umbarger, MA; and Donald O’Grady, MA, Cincinnati ......................... 2

Clinical Observations on Phenylketonuria
Richard Koch, MD; Phyllis Acosta, MPH; Karol Fishler, PhD; Graciela Schaeffler, BS; and Audrey Wohlers, BS, Los Angeles .................. 6

The Early Treatment of Phenylketonuria
Joseph L. Kennedy, Jr., MD; Wladimir Wertelecki, MD; Lorraine Gates, MS; Barbara P. Sperry, BS; and Victoria M. Cass, MD, Boston ............... 16

Hyperphenylalanemia Without Phenylketonuria
Margaret E. O’Flynn, MB, ChB, DCh; Paul Tilintan, MD; and David Yi-Yung Hsia, MD, Chicago .................................................... 22

Tyrosinemia

Dietary Treatment in Tyrosinemia (Tyrosinosis)
With a Note on the Possible Recognition of the Carrier State
Johan Gents, MD; Bengt Lindblad, BM; Sven Lindstedt, MD; Louis Levy, MD; William Shasteen, MD; and Rolf Zetterström, MD, Stockholm .................. 31

Dietary Treatment of Tyrosinosis
Sverre Halvorsen, MD, Oslo .......................................................... 38

Hereditary Tyrosinemia and Tyrosyluria in a French Canadian Geographic Isolate
Charles R. Scriver, MDCM; Jean Larochelle, MD; and Mervin Silverberg, MD, Montreal ........................................................... 41

Tyrosinosis
Maurice D. Kogut, MD; Kenneth N. Shaw, PhD; and George N. Donnell, MD, Los Angeles ....................................................... 47

The Enzymatic Deficiency in Tyrosinemia
Bert N. La Du, MD, New York ...................................................... 54

Branched Chain Amino Acid Disturbances

Dietary Treatment of Maple Syrup Urine Disease
R. G. Westall, DSc, London .......................................................... 58

Hypoglycemia in Maple Syrup Urine Disease
George N. Donnell, MD; Ellis Lieberman, MD; Kenneth N. F. Shaw, PhD; and Richard Koch, MD, Los Angeles ........................................ 60

Hypervalinemia
Its Metabolic Lesion and Therapeutic Approach
Keiya Tada, MD; Yoshiro Wada, MD; and Tsuneo Arakawa, MD, Sendai, Japan ................................................................. 64

The Therapy of Maple Syrup Urine Disease
Selma E. Snyderman, MD, New York ................................................ 68

(Continued on Following Page)
Isovaleric Acidemia
Mary L. Efron, MD, Boston ...................................... 74

Hydroxykynureninuria

Hydroxykynureninuria
G. M. Komrower, MB, FRCP, and Roland Westall, DSc, Manchester, England ... 77

Acetophenetidin Sensitivity

Acetophenetidin Sensitivity
N. T. Shahidi, MD, Madison, Wis .................................. 81

Histidinemia

Salient Features of Histidinemia
H. Ghadimi, MD, and M. W. Partington, Brooklyn, NY .............. 83

Histidinemia
Bert N. La Du, MD, PhD, New York .................................. 88

Variations in Clinical and Laboratory Findings in Histidinemia
Harry A. Waisman, PhD, MD, Madison, Wis .......................... 93

Homocystinuria

Homocystinuria
Trial Treatment of a 5-Year Old Severely Retarded Child
With a Natural Diet Low in Methionine
Nina A. J. Carson, MD, Belfast, Ireland .................................. 95

Homocystinuria
G. M. Komrower, MB, FRCP, Manchester, England .................. 98

Some Theoretical Considerations in the Treatment of Homocystinuria
Harry A. Waisman, PhD, MD, Madison, Wis .......................... 101

The Pathogenesis of Homocystinuria
Implications for Treatment
Gerald E. Gaul, MD, New York ......................................... 103

Pyridoxine Deficiency and Dependency

Vitamin B6 Deficiency and Dependency in Man
Charles R. Scriver, MDCM, Montreal .................................... 109

Cystathioninuria: Management
G. W. Frimpter, MD; A. J. Greenberg, MD; M. Hilgartner, MD; and F. Fuchs, MD, New York .......... 115

Cystathioninuria
Kenneth N. F. Shaw, PhD; Ellin Lieberman, MD; Richard Koch, MD; and George N. Donnell, MD, Los Angeles .......... 119

Hyperglycinemia and Sarcosinemia

Treatment of Hyperglycinemia
William L. Nyhan, MD, PhD, Miami, Fla .............................. 129

Hypersarcosinemia
A Newly Described Inborn Error of Metabolism
Harry A. Waisman, PhD, MD, and Theo Gerritsen, DSc, Madison, Wis .......... 134

The Ornithine Cycle

Lysine Intolerance With Periodic Ammonia Intoxication
J. P. Colombo, MD; F. Vassella, MD; R. Humbel, BS; and
W. Burgi, MD, Berne, Switzerland .................................... 138

(Continued on Following Page)
CONTENTS—Continued

Treatment of Hyperammonemia
B. Levin, MD, and Alex Russell, MD, MRCP, London .................................................. 142

Further Studies on Hyperlysinemia Associated With Retardation
H. Ghadimi, MD; R. Zischka, PhD; and
V. I. Binnington, MD, Brooklyn, NY .......................................................... 146

Studies on Amino Acid Metabolism in Citrullinuria
F. Mohyuddin, PhD; J. C. Rathbun, MD; and
W. C. McMurray, PhD, London, Ontario, Canada ........................................... 152

Citrullinemia
A Preliminary Case Report
Grant Morrow, MD, Philadelphia .......................................................... 157

Therapeutic Treatment in Arginosuccinic Aciduria
R. G. Westall, DSc, London ............................................................................... 160

Arginosuccinic Aciduria
B. Levin, MD, London .................................................................................... 162

Hydroxyprolinemia and Hyperprolinemia
Treatment of Hydroxyprolinemia and Hyperprolinemia
Mary L. Efron, MD, Boston ........................................................................... 166

Membrane Transport in Disorders of Imino-Acid Metabolism
Charles R. Scriver, MDCM, Montreal ............................................................... 170

SPECIAL FEATURES

Radiological Case of the Month
John L. Gwinn, MD, and George R. Barnes, Jr., MD, Los Angeles .................. 175

Picture of the Month
Sydney S. Gellis, MD, and Murray Feingold, MD, Boston ............................ 177

ADVERTISING and SUBSCRIPTION INFORMATION

RUSSELL H. CLARK,
Director,
Management Services Division

CHARLES S. LAUER,
Director of Advertising

GLENN R. KNOTTS,
Advertising Evaluation Director

WALTER H. KIMOTEK,
Advertising Production Manager

ROBERT A. ENLOW,
Circulation Manager

JOHN F. CASURELLA,
Assistant Circulation Manager

Advertising Offices: 535 North Dearborn Street, Chicago, Illinois 60610, Area Code 312, 527-1500; and 30 East 42nd Street, Room 1501-1502, New York, New York 10017; Tel: TN-7-6640.

Each advertisement in this issue has been reviewed and complies with the principles of governing advertising in AMA scientific publications. A copy of these principles is available upon request from the Office of Advertising Evaluation.

The yearly rate of the AMERICAN JOURNAL OF DISEASES OF CHILDREN is: United States, US Possessions, Canada, and Mexico, one year, $12.00; two years, $18.00; all other countries, one year, $25.00; two years, $35.00. Special price to Residents, Interns, and Medical Students in the United States, US Possessions, Canada, and Mexico, one year, $6.00; two years, $9.00. Single copies of the current year and the immediate past year will be $1.25 each and may be ordered from the Circulation Department, American Medical Association, 535 North Dearborn Street, Chicago, Illinois 60610. Back issues older than two years are available through Walter J. Johnson, Inc., 111 Fifth Avenue, New York, New York 10003.

CHANGE OF ADDRESS: Please notify the publisher at least four weeks in advance, including both old and new address, and a mailing label taken from the most recent copy. Include your new ZIP Code number.

The AMERICAN JOURNAL OF DISEASES OF CHILDREN is published monthly by the American Medical Association and is an official publication of the Association. Second-class postage paid at Chicago, Illinois, and at additional mailing offices. Please address communications and subscription orders to: American Medical Association, 535 North Dearborn Street, Chicago, Illinois 60610.
